Facial Descriptions

- *Fancy Facial*

Includes a double cleanse, exfoliation, toning, massage of facial muscles and décolleté, masque, eye treatment, moisturizing and solar protection. *Dermalogica* products used are determined by your esthetician based on our consultation and the needs of your specific skin type.

- *Extra Fancy Facial*

Includes everything in a *Fancy Facial* with added foot massage, deeply moisturizing paraffin treatment for both hands and feet, and a scalp massage.

- *Pumpkin Enzyme Peel*

Includes everything you get in a fancy facial, plus a pumpkin enzyme treatment for a deeper exfoliation. This is great for sun damaged and extra dry skin.

- *Acne Assistance*

This facial includes *Dermalogica* products focused on treating oily and acneic skin issues. Extractions are included.

- *Green Goddess*

This delicious and relaxing treatment includes similar steps to the fancy facial, but uses all organic products including Tuel's superfood masque comprised of kale, spirulina, and spinach. CBD infused products are used as well to provide a luscious experience that leaves your skin feeling well cared-for.

- *Dermplaning*

Using a surgical blade, dermplaning is a non-invasive skin resurfacing and rejuvenation procedure that helps to refinish the skin's top layers through a method of controlled gentle scraping, removing the outermost layer of non-living epidermal skin cells and facial hair, leaving the skin renewed, smooth and vibrant.
